Military Status: Exempted | **Available for immediate start**

PROFESSIONAL SUMMARY

Frontend Developer specializing in React and TypeScript, now building full-stack applications with Next.js and learning backend development with Node.js, Express.js, and MongoDB. Shipped four live React applications to Netlify and Vercel, including an Arabic news feed with a custom “Smart Query” search strategy. Information Systems graduate with UI/UX training from Nile University, bringing a product-minded approach that turns Figma designs into clean, maintainable code.

TECHNICAL SKILLS

Frontend: React.js, TypeScript, JavaScript (ES6+), React Router, HTML5, CSS3, Tailwind CSS, Material UI, CSS Modules, REST APIs
Currently Learning: Next.js (App Router), Node.js, Express.js, MongoDB, Mongoose, Redux Toolkit
University Coursework: Python, C++, C#, SQL Server, OOP, Data Structures & Algorithms
Testing, Tools & OS: Vitest, Postman, Git, GitHub, Vite, Netlify, Vercel, Linux (Fedora), Command Line (CLI)
UI/UX: Figma, Responsive Design, Web Accessibility, Light/Dark Theming

PROJECTS

Forsa (Job Board, In Progress) | *Next.js, React, TypeScript, Tailwind CSS* github.com/N3ssar/forsa

- Building a job board with the Next.js App Router while learning it: job listings and detail pages are done; applications, an admin dashboard, and role-based auth are next.

NoteNest (REST API) | *Node.js, Express.js, MongoDB, Mongoose, Postman* github.com/N3ssar/NoteNest

- Built a RESTful CRUD API for notes with Node.js and Express.js, persisting data in MongoDB through Mongoose models.
- Implemented custom middleware and centralized error handling for consistent error responses, tested with Postman.

Nabd Masr (Egypt News Feed) | *React, TypeScript, Material UI, Vite* github.com/N3ssar/nabd-masr

- Built a responsive Arabic news feed for Egypt on NewsAPI, with category filtering, search, and pagination.
- Added skeleton loaders, search debouncing, image fallbacks, and clear network and rate-limit error screens.
- Eliminated recurring HTTP 500 errors and empty Arabic results with a “Smart Query” using boolean search logic.

Around The World (Country Explorer) | *React, TypeScript, Vite, Tailwind CSS, React Router* around-the-w0rld.vercel.app

- Built a responsive explorer for 250+ countries on the REST Countries API, using strict TypeScript types for nested API data.
- Cached API responses in Local Storage to eliminate redundant network requests for returning users.
- Fixed wrong border-country navigation by matching on unique cca3 codes instead of names, and removed loading flicker.

Kanban Board | *React, Redux Toolkit, Tailwind CSS* flowban-app.netlify.app

- Built a responsive, accessible task board from a Frontend Mentor design, managing task state with Redux Toolkit.
- Implemented pre-filled edit forms, status selection for moving tasks, and a Light/Dark theme driven by CSS variables.

CalTrack (Calorie Tracker) | *React, TypeScript, React Router, CSS Modules* clatrack.netlify.app

- Managed multi-condition form state and real-time user input with useReducer and strict TypeScript types.
- Implemented client-side routing with React Router and component-scoped CSS Modules to prevent style conflicts.

EXPERIENCE

Sales Representative | compuMe, Cairo, Egypt 12/2025 – 04/2026

- Advised retail customers on laptops and accessories, translating technical specs into clear, needs-based recommendations.
- Recognized by management for professionalism, reliability, and a strong commitment to teamwork and customer service.

EDUCATION

Bachelor's Degree in Information Systems | Port Said University, Port Said, Egypt 09/2021 – 07/2025

- **Graduation Project:** HomeTech, a household services platform (plumbing, electrical work, carpentry, maintenance).
- **Relevant Coursework:** Data Structures, Databases, Web Development, Networking Fundamentals, Data Mining, Information Retrieval.

UI/UX Scholarship | Nile University (Online) – user-centered design, Figma to frontend workflow 2026

CERTIFICATIONS

Data Structures Decode (08/2026) | **Node.js From Scratch** (07/2026) – Cloud Native Base Camp
React with TypeScript (incl. testing with Vitest) | **React.js Track** | **JavaScript Track** (03/2025)
Interactive Web Design Track (10/2024) | **Programming Fundamentals Track** (07/2024)

LANGUAGES

Arabic: Native | **English:** Professional Working Proficiency
